

Unlocking National Energy Efficiency potential (UNNATEE):

Bureau of Energy Efficiency (BEE) has developed a national strategy document for accelerating energy efficiency in India. The strategy document titled **UNNATEE (Unlocking National Energy Efficiency potential) describes** a plain framework and implementation strategy to establish a clear linkage between energy supply-demand scenarios and energy efficiency opportunities. The document offers a comprehensive roadmap to address India's environmental and climate change mitigation action through energy efficiency measures.

This exercise is first of its kind, clearly delineating the energy efficiency targets for the respective demand sectors upto the state levels. Developing India's blueprint of effective energy efficiency strategy is a leap towards stimulating energy efficiency ecosystem and enabling reduction of the pressure on demand. PwC India has assisted BEE in executing this assignment. This document has been prepared after extensive discussion with various departments, organisations and authorities. The document has now been released for larger public consultation and seeking comments/ valuable inputs from all the stakeholders.

The draft of UNNATEE is uploaded for public consultation.
